by deleting all language after the enacting clause and by substituting instead the following:

SECTION 1. Tennessee Code Annotated, Title 29, is amended by adding the following as a new chapter:

29-40-101. In this chapter:

(1) "Affiliated person" means a person under common ownership or control of an intended recipient.

(2) "Intended recipient" means a person who purchases, rents, leases, or otherwise obtains a product or service in the commercial market that is not for resale in the ordinary business and that is, or later becomes, the subject of a patent infringement allegation.

(2) The communication falsely states that litigation has been filed against the intended recipient or any affiliated person; or

(3) The assertions contained in the communication lack a reasonable basis in fact or law because:

(A) The person asserting the patent is not a person, or does not represent a person, with the current right to license the patent to, or to enforce the patent against, the intended recipient or any affiliated person;

(B) The communication seeks compensation for a patent that has been held to be invalid or unenforceable in a final, unappealable or unappealed judicial or administrative decision;

(C) The communication seeks compensation on account of activities undertaken after the patent has expired; or

(D) The content of the communication fails to include such information necessary to inform an intended recipient or any affiliated person about the patent assertion by failing to include any one of the following:

(i) The identity of the person asserting a right to license the patent to or enforce the patent against the intended recipient or any affiliated person;

(ii) The patent number issued by the United States Patent and Trademark Office alleged to have been infringed; or

(iii) The factual allegations concerning the specific areas in which the intended recipient or affiliated person's products, services, or technology infringed the patent or are covered by the claims in the patent.

(b) Nothing in this section shall be construed to be a violation of this chapter for any person who owns or has the right to license or enforce a patent to:

(1) Advise others of that ownership or right of license or enforcement;

(2) Communicate to others that a patent is available for license or sale; or

(3) Notify another of the infringement of the patent; or

(4) Seek compensation on account of past or present infringement, or for a license to the patent, provided that the person is not acting in bad faith.

(c) The provisions of this chapter shall not apply to any written or electronic communication sent by:

(1) Any owner of a patent who is using the patent in connection with substantial research, development, production, manufacturing, processing or delivery of products or materials;

(2) Any institution of higher education as that term is defined in section 101 of the Higher Education Act of 1963 (20 U.S.C. § 1001);

(3) Any technology transfer organization whose primary purpose is to facilitate the commercialization of technology developed by an institution of higher education; or

(4) Any person or business entity seeking a claim for relief arising under 35 U.S.C. § 271(e)(2).

(b) In an action brought by the attorney general under this chapter, the court may award or impose any relief available under § 29-40-104 or title 47, chapter 18.

(c) In addition to the relief provided for in § 29-40-104, upon a motion by the attorney general and a finding by the court that there is a reasonable likelihood that a person violated § 29-40-102, the court may require the person to post a bond in an amount equal to a good faith estimate of the costs to litigate a claim and amounts reasonably likely to be recovered if an action were to be brought by § 29-40-103. A hearing shall be held if either party requests a hearing.
